

# All-American Keepsake Rugs

From top to bottom, Bears & Bulls, Artichokes, Pears, Peony, Blackberry Bramble, Love My Shoes, Pineapple, Petals & Pups. At right, Some Like It Hot.

**A Bright Summertime Idea.** When the livin's supposed to be easy, it's nice knowing a Carpet Network mobile showroom will bring right to your door the world of flooring fashion and someone who knows decor, can measure and order exactly what you need, then make sure the installation is to your satisfaction. Carpet, wood, ceramic and porcelain tile, laminate, window treatments and, of course, area rugs. Speaking of rugs, ask your Carpet Network professional to introduce you to my own designs featured on this page. By American Home Designs, they're a unique line of all-wool keepsake rugs which literally speak for themselves. Each image dramatically links to something in our lives, and each rug's story is told in a finely-embroidered inset. On the back is a place to leave a personal message for the next generations. Do say that Sonna referred you. Here's a tip: ask about Carpet Network's offer to use only the best quality cushion, Stainmaster®, with all carpets. (It's all about lasting beauty and durability.)
